

# What is it?

- second generation of the tried and tested Leonardo platform
- increased strength and robustness due to a new all-steel chassis and hood
- integrated forklift pockets
- provides exceptional maneuverability in difficult working conditions
- pothole protection mechanism provides unique ground clearance
- go-to low-level access equipment for a wide range of US contractors

# Why choose the Leonardo HD?

## EFFICIENCY AND VERSATILITY

- easily driven through doorways and tight spaces
- compact size
- ultra-maneuvrable
- featherweight of only 1212 lbs.

## SAFETY

- drivable at full height – 16 feet, fully loaded - 397 lbs. and with the platform fully extended, at an automatic slow speed of 0,35 mph.
- built-in tilt sensor, flashing light and audible alarm
- active pothole protection mechanism.

## DURABILITY

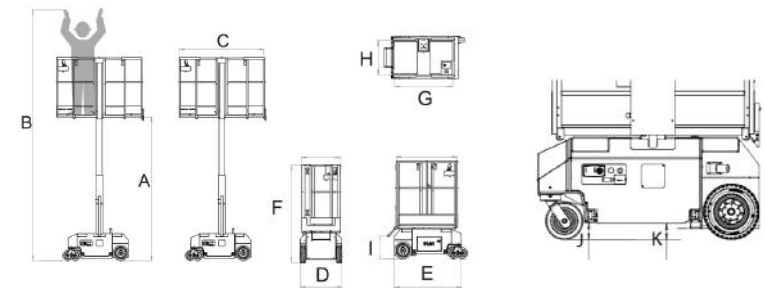

- maintenance-free lifting mast
- high-quality components
- simple yet effective design
- can be fitted with 100 Ah, 12V AGM batteries that provide a longer work cycle between charges.

**"The Leonardo HD is the first piece of equipment to get on the job site and the last to leave."**

## Measurements

<b>A Platform Height</b>	9 ft 6 in	<b>Unit Weight</b>	1212 lbs.
<b>B Working Height</b>	16 ft	<b>Rated Number of Occupants</b>	2
<b>C Platform Length W/ decks ext.</b>	5 ft 6 in	<b>Drive Speed Stowed</b>	1.9 mph
<b>D Width</b>	28.8 in	<b>Drive Speed Elevated</b>	0.35 mph
<b>E Base Length</b>	3 ft 10 in	<b>Raise/Lower Speed</b>	16 / 21 sec
<b>F Height Stowed</b>	5 ft 7 in	<b>Inside Turning Radius</b>	Null
<b>G Platform Length</b>	3 ft 9 in	<b>Outside Turning Radius</b>	4 ft 17 in
<b>H Platform Width</b>	26.4 in	<b>Controls</b>	One hand proportional controller
<b>I Entry Step</b>	15.6 in	<b>Gradeability</b>	35%
<b>J Ground Clearance - front</b>	3.6 in	<b>Hydraulic System Capacity</b>	5.3 gal
<b>K Ground Clearance - middle</b>	3.4 in	<b>Power Source</b>	110/220 V ca 24Vcc
<b>Platform Capacity w/ decks ext.</b>	397 lbs.	<b>Batteries</b>	n° 2 - 12V; 85Ah@20h
